Waxness Teal Dream is a rosin-free performance hard wax with a demi creamy consistency. Very versatile, it is recommended for sensitive skin and it performs very well applied on large or small areas. It has a glamorous enticing sparkly appearance and a modern color that is also very visible on any type of skin.

The bag design is inspired by Le Petit Prince, the theme is surreal childish like a child's dream and the main design

element is a "Waxing Crescent Moon" a phase in which the moon transition from New Moon to Full Moon. The word "Waxing" has 2 meanings, for the Moon means that it is growing and for our product that we are waxing?

Crescent Moon especially in the waxing phase is a very powerful spiritual symbol in almost all cultures from Christians to Muslims and Mystics without affiliation.

Many elements are randomly mixed like in a dream. For example, the elements above the German language are the Florida Keys Islands also because the teal color is traditional there and it may be something you may dream about.
