

WAXNESS[®] SPA CHOICE[™]

MATERIAL SAFETY DATA SHEET

Rev. 002 date July 8, 2026

1. IDENTIFICATION OF THE PRODUCT AND OF THE COMPANY

Typology of the product: Depilatory hard wax

Code: BB016711

Commercial name: Waxness Spa Choice Rosin Free Multidirectional Baby Blue Hard Wax Beads

Company Identification: 1BEAUTY US LLC

Telephone number: (760) 636-6923, (760) 636-1641

Email: sales@waxness.com | Website: www.waxness.com

2. HAZARD(S) IDENTIFICATION

2.1 CLASSIFICATION OF THE SUBSTANCE OR MIXTURE

According to OSHA Hazard Communication Standard (HCS 2012), 29 CFR 1910.1200 and the Globally Harmonized System (GHS), this mixture is not classified as hazardous.

No GHS classification for physical, health or environmental hazards under normal conditions of use.

2.2 LABEL ELEMENTS

GHS label elements:

- Pictograms: Not required.
- Signal word: None.
- Hazard statements: Not required for non-classified mixture.

Precautionary statements:

- P264: Wash hands and exposed skin thoroughly after handling melted product.
- P280: Wear protective gloves when handling hot, melted wax.
- P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
- P363: Wash contaminated clothing before reuse.

2.3 OTHER HAZARDS

- The product may cause thermal burns if applied at excessively high temperature.
- The product may cause allergic reactions in sensitised individuals due to fragrance oils and botanical extracts.
- No ingredients are classified as PBT or vPvB according to current criteria, based on available data.

2.4 REGULATORY INFORMATION REFERENCED IN THIS SECTION

This Safety Data Sheet is prepared in accordance with:

1Beauty US LLC, 77720 Springfield Ln, Ste A, Palm Desert, California 92211, United States of America
Tel: (760) 636-6923, (760) 636-1641, Email: sales@waxness.com, www.waxness.com

WAXNESS[®]

SPA CHOICE[™]

- Globally Harmonized System of Classification and Labelling of Chemicals (GHS).
- OSHA Hazard Communication Standard 2012 (29 CFR 1910.1200).

For products marketed in California, hazard communication is intended to be consistent with applicable state requirements, including Proposition 65 where relevant.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 SUBSTANCE

Not applicable – product is a mixture.

3.2 MIXTURES

Mixture of natural and synthetic ingredients for cosmetic depilatory use.

Hydrogenated Poly (C6-20 Olefin), Hydrogenated Mycrocrystalline Wax, Ethylene/VA Copolymer, Paraffin, Titanium Dioxide, Mineral Oil (Paraffinum Liquidum), Pentaerythrityl Tetra-Di-T-Butyl Hydroxyhydrocinnamate, D&C Green No.6 (CI 61565).

The product is a cosmetic mixture; individual ingredient concentrations are not hazardous at levels present and are considered proprietary. CAS and EC numbers may be provided upon justified request, where applicable.

4. FIRST-AID MEASURES

General: In case of doubt, or if symptoms persist, seek medical attention. Show this SDS to the physician.

Inhalation: Under normal conditions of use, inhalation is not expected to be a route of exposure. In case of excessive fume inhalation from overheated wax, move person to fresh air and keep at rest; seek medical advice if symptoms occur.

Skin contact (solid product at room temperature): Rinse with water and wash with mild soap if necessary.

Skin contact (hot/melted wax): Do not attempt to remove solidified wax by force. Cool affected area immediately with plenty of cool water. Do not apply solvents. Seek medical attention if burns or blisters occur.

Eye contact: Rinse cautiously with water for several minutes, keeping eyelids open. Remove contact lenses if present and easy to do. Continue rinsing for at least 10 minutes. If irritation persists, seek medical advice.

Ingestion: Rinse mouth. Drink water to dilute. Do not induce vomiting. Seek medical advice immediately.

Most important symptoms and effects: Possible thermal burns, redness or irritation from hot wax, and allergic skin reactions in sensitised individuals.

WAXNESS[®]

SPA CHOICE[™]

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water spray, nebulised water, foam, carbon dioxide (CO₂), dry chemical powder, depending on surrounding materials.

Unsuitable extinguishing media: None known.

Specific hazards arising from the substance or mixture: In case of fire, combustion may produce irritating fumes and smoke.

Special protective equipment and precautions for firefighters: Wear self-contained breathing apparatus and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid contact with hot, melted product. Wear gloves and appropriate protective clothing if handling spilled material.

Environmental precautions: Prevent product from entering drains, surface water or soil.

Methods and material for containment and cleaning up: Allow hot wax to cool and solidify if safe to do so; collect solid material mechanically; absorb residues with sand, sawdust or other inert absorbent; clean the area with water and detergent; do not return collected material to original container for reuse.

7. HANDLING AND STORAGE

Precautions for safe handling: Follow product instructions, avoid overheating, avoid contact of hot wax with skin and eyes, and use clean tools and equipment.

Conditions for safe storage: Store in original, tightly closed containers in a cool, dry, well-ventilated place away from direct sunlight and heat sources. Keep out of reach of children.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters: No specific occupational exposure limit values established for this mixture.

Engineering controls: Normal room ventilation is generally adequate. Avoid generation of fumes by overheating wax.

Respiratory protection: Not required under normal conditions of use.

Hand protection: Wear heat-resistant protective gloves when handling hot, melted wax.

Eye protection: Safety glasses or face shield recommended when handling hot wax.

Skin and body protection: Wear suitable protective clothing when handling hot product.

Hygiene measures: Wash hands and exposed skin after handling. Do not eat, drink or smoke while using this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Pearled baby blue solid

WAXNESS[®]

SPA CHOICE[™]

Odour: Characteristic

pH: Not applicable / not determined

Boiling point: >200 °C

Flammability: Not classified as flammable under normal conditions of use

Explosive properties: None known

Solubility in water: Insoluble

Solubility in hydrocarbon solvents: Highly soluble

Solubility in acetone: Highly soluble

Brookfield viscosity at 70 °C: 27,000 - 32,000 cPs

Relative density at 25 °C: 0.97 - 0.99 g/ml

Softening point: 60 - 64 °C

10. STABILITY AND REACTIVITY

Reactivity: No hazardous reactivity expected under recommended conditions of storage and use.

Chemical stability: Stable under normal conditions.

Possibility of hazardous reactions: No dangerous reactions known.

Conditions to avoid: Excessive heat, open flames, and prolonged exposure to high temperatures above recommended melting range.

Incompatible materials: None known under normal conditions of use.

Hazardous decomposition products: At high temperatures, decomposition may produce carbon oxides and irritating fumes.

11. TOXICOLOGICAL INFORMATION

Likely routes of exposure: Skin contact, eye contact, accidental ingestion, and inhalation of fumes if overheated.

Acute toxicity: Not expected to be acutely toxic under intended conditions of use.

Skin corrosion/irritation: Hot wax may cause burns and irritation.

Serious eye damage/irritation: Hot wax splashes may cause mechanical and thermal eye injury.

Respiratory or skin sensitization: Fragrance components and botanical extracts may cause skin sensitization in predisposed individuals.

Carcinogenicity, mutagenicity, reproductive toxicity, STOT, aspiration hazard: Not expected based on available data and intended use.

12. ECOLOGICAL INFORMATION

Ecotoxicity: The product is not considered dangerous for the environment when used as directed and disposed of properly.

WAXNESS[®]

SPA CHOICE[™]

Persistence and degradability: No specific data available.

Bioaccumulative potential: No specific data available.

Mobility in soil: Low mobility expected.

Other adverse effects: None known under normal conditions of use.

13. DISPOSAL CONSIDERATIONS

Product residues: Dispose of as non-hazardous solid waste in accordance with local, state and federal regulations.

Do not discharge into drains or the environment.

Excess or unused product: Contact supplier where appropriate.

Contaminated packaging: Dispose of according to local regulations after complete emptying.

14. TRANSPORT INFORMATION

This product is not regulated as dangerous goods for transport under DOT, ADR/RID, IMDG or IATA.

15. REGULATORY INFORMATION

OSHA Hazard Communication Standard: This product is not classified as hazardous under OSHA HCS 2012 (29 CFR 1910.1200).

GHS: This SDS is prepared according to the principles of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

California: For products marketed in California, compliance with applicable state regulations, including Proposition 65, should be verified by the responsible company.

Users must ensure compliance with all applicable local, national and international regulations.

16. OTHER INFORMATION

Sanitary warning: Do not apply on sore, injured or diseased skin.

Directions for use: Follow instructions provided on packaging or in the enclosed leaflet.

Professional hygiene: Use perfectly clean tools and maintain appropriate hygienic conditions.

This Safety Data Sheet is intended to describe the product in terms of health, safety and environmental requirements and does not constitute a guarantee of specific properties.
