MATERIAL SAFETY DATA SHEET

Rev. 002 date July 24, 2026

1. IDENTIFICATION OF THE PRODUCT AND OF THE COMPANY

Typology of the product: Cosmetic accessory - exfoliating mini glove (textile / synthetic accessory for external use on skin)

Code: SKU018645

Commercial name: KAZ EXFOLIATING MINI GLOVE 4 PACK

Company Identification: 1BEAUTY US LLC

Telephone number: (760) 636-6923, (760) 636-1641

Email: office@1beauty.us

Intended use: Textured mini exfoliating gloves designed to be slipped on the fingers and used with water and/or cosmetic cleansers to gently exfoliate facial and body skin, for professional and home use.

2. COMPOSITION/INFORMATION ABOUT THE INGREDIENTS

Chemical identification:

Article (solid finished accessory) manufactured from textile/synthetic fibers; not a chemical mixture in the sense of Regulation (EC) 1907/2006 (REACH).

Typical materials: Non-woven bamboo fiber (interior layer) 50% and nylon (exterior layer) 50%, plus elastic sewing threads and dyes/pigments for coloration.

INCI formula: Not applicable, this is a non-cosmetic accessory (no cosmetic formulation, only solid textile materials).

CAS NUMBER: Not applicable.

EINECS NUMBER: Not applicable.

The product does not contain hazardous substances in quantities that would require classification according to Regulation (EC) No 1272/2008 (CLP) under normal and reasonably foreseeable conditions of use.

3. HAZARDS IDENTIFICATION (DANGER ADVICE)

Classification of the substance or mixture:

The product is a solid finished article (exfoliating glove) and is not classified as dangerous according to Regulation (EC) No 1272/2008 (CLP).

Most important hazards:

1Beauty US LLC, 77720 Springfield Ln, Ste A, Palm Desert, California 92211, United States of America
Tel: (760) 636-6923, (760) 636-1641, Email: office@1beauty.us, www.kaz.shop

kaz

- No specific hazards are expected under normal conditions of professional or consumer use.
- Mechanical friction may cause temporary skin redness or irritation, particularly on sensitive or already irritated skin.
- Fibers or dust generated by cutting or intense mechanical abrasion may cause temporary eye irritation on direct contact.

General warning: External use only. Do not use on broken, infected, excessively irritated, sunburned, or otherwise compromised skin.

4. FIRST-AID MEASURES

Contact with skin:

- Intended for contact with healthy skin.
- If excessive redness, irritation or discomfort occurs, discontinue use, rinse the area with water and mild soap, and seek medical advice if symptoms persist.

Contact with eyes:

- Rinse immediately with plenty of water for at least 10-15 minutes, holding eyelids open.
- Remove contact lenses if present and easy to do.
- If irritation, pain or visual disturbances persist, seek medical attention.

Inhalation:

- Not expected under normal conditions of use.
- If dust or loose fibers are inhaled in large quantities, move person to fresh air; seek medical advice if respiratory symptoms persist.

Swallowing:

- Ingestion is not an intended route of exposure.
- If a small piece of fiber is swallowed accidentally, rinse mouth with water; seek medical attention if discomfort occurs.

Most important symptoms and effects: Possible mild and reversible skin or eye irritation due to mechanical friction or loose fibers.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Water spray, foam, dry chemical powder, carbon dioxide (CO₂).

Unsuitable extinguishing media: None known for finished articles; select extinguishing media suitable for surrounding fire.

Special hazards arising from the product: In case of fire, the textile/synthetic materials may produce combustion fumes including carbon monoxide, carbon dioxide, and nitrogen oxides.

Advice for firefighters: Wear appropriate protective equipment and self-contained breathing apparatus in case of large fire.

kaz

6. MEASURE IN CASE OF ACCIDENTAL RELEASE

The product is a solid article; accidental release refers mainly to dropped or damaged articles.

Personal precautions:

- Avoid creating excessive dust by tearing or cutting the material.
- In case of large quantity of loose fibers, use gloves and eye protection.

Environmental precautions:

- Prevent large quantities of loose fibers from entering drains or open watercourses.

Methods for cleaning up:

- Collect gloves and loose fibers mechanically (broom, brush, vacuum or manual pick-up).
- Dispose of as non-hazardous household/industrial waste in accordance with local regulations.

7. HANDLING AND STORAGE

Handling:

- Use only as an exfoliating accessory on intact, healthy skin to gently remove surface dirt and debris and to prepare the skin for subsequent cosmetic treatments.
- Do not use on broken, infected, sunburned or severely irritated skin.
- Avoid excessive pressure or prolonged friction on the same area.
- Keep out of reach of children; use only under adult supervision for minors.

Storage:

- Store in a clean, dry place, away from excessive humidity, heat sources and direct sunlight.
- Keep product in its original packaging until use to protect from contamination and dust.
- Avoid contact with aggressive chemicals, solvents, or oils that could degrade the material.

8. EXPOSURE CHECK/PERSONAL PROTECTION

The product is a solid cosmetic accessory (mini exfoliating finger gloves) and does not require special exposure controls or personal protective equipment under normal and reasonably foreseeable conditions of use.

- No specific respiratory protection is required.
- No specific eye protection is required under normal use.
- No special protective clothing or gloves are required beyond normal professional hygiene practices.

General hygiene measures: wash hands after professional treatments and keep the product clean and dry during storage and use.

kaz

9. PHYSICAL AND CHEMICAL PROPERTIES

Aspect: Small, textured mini finger gloves.

Colour: White

Odour: Practically odourless or light textile odour.

Physical state: Solid, flexible textile/synthetic article

pH: Not applicable (solid article).

Flash Point: Not determined

Boiling point: Not applicable

Melting Point: Not determined

Flammability: Combustible solid; will burn in case of contact with sufficient heat or flame.

Solubility in water: Insoluble

VOC: NA

10. STABILITY AND REACTIVITY

Reactivity: No hazardous reactivity expected under normal conditions of storage and use.

Chemical stability: Stable under recommended storage conditions.

Conditions to avoid: Excessive heat, open flame, prolonged exposure to high temperatures or direct sunlight.

Incompatible materials: Strong oxidizing agents, strong acids and bases may damage the material.

Hazardous decomposition products: In case of fire or thermal decomposition, may release carbon oxides and nitrogen oxides.

11. TOXICOLOGICAL INFORMATION

General information:

This is a cosmetic accessory for external use (solid textile article), not a cosmetic formulation or chemical preparation.

Under normal and reasonably foreseeable conditions of use, no acute or chronic toxicological effects are expected.

Potential routes of exposure:

- Skin contact - intended use.
- Eye contact - possible accidental exposure due to loose fibers or particles.

Possible effects:

kaz

- Mild, temporary skin irritation due to mechanical friction, especially on sensitive skin.
- Mild, temporary eye irritation due to fibers/dust.
- The product does not contain substances with known carcinogenic, mutagenic or reproductive toxicity at relevant concentrations according to available data.

The product is not dangerous for the environment if used in accordance with the working procedures, avoiding to disperse the product in the environment.

12. ECOLOGICAL INFORMATION

- No significant environmental hazards are known.
- Avoid unnecessary disposal into the environment.
- Product is not expected to be hazardous to aquatic organisms.

13. DISPOSAL CONSIDERATIONS

Product:

Dispose of used or damaged exfoliating gloves as non-hazardous household or commercial waste in accordance with local, regional and national regulations.

Do not dispose of large quantities into drains or natural watercourses.

Packaging: Empty packaging can be recycled or disposed of according to local packaging waste regulations.

14. TRANSPORT INFORMATION

The product is not classified as dangerous goods for transport by road, rail, sea, or air (ADR/RID, IMDG, IATA).

No special transport conditions required.

15. REGULATORY INFORMATION

The product is a finished cosmetic accessory (article) and is not subject to classification as a hazardous mixture under Regulation (EC) No 1272/2008 (CLP).

It must be used in combination with cosmetic products compliant with Regulation (EC) No 1223/2009 on cosmetic products, where relevant.

Users must also respect any applicable national and local regulations for consumer products, workplace safety and waste management.

16. OTHER INFORMATION

Other information: This safety data sheet is prepared in accordance with EC Directive 2001/58/EC.

kaz

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.

This is not a specification and customers should satisfy themselves as to the completeness of information for their own particular use.

Method of use: Follow the instructions written in the packaging or in the enclosed leaflet. Avoid all methods of use which are not indicated in the instruction leaflet

Norms of behavior: The beautician must inform the consumer about the message contained in the precautions and warnings, both for contraindications and allergic reactions.
